TIMES-VIRGINIAN
APPOMATTOX, VIRGINIA
A LIVE WEEKLY NEWSPAPER AT HISTORIC APPOMATTOX COURT HOUSE VIRGINIA
VOL 79 NUMBER 35 APPOMATTOX (VA.), 24522 - TIMES-VIRGINIAN, AUGUST 31, 1972 10c SINGLE COPY

Tenth Anniversary

September 1, 1972, marks the Tenth Anniversary of the **Times-Virginian** under the ownership of the Vaughans, however, this year will be the 80th year since the founding of this newspaper.

On September 1, 1962, ten years ago, Mr. and Mrs. W. Lloyd Vaughan, then of Farmville, purchased the **Times-Virginian** from Mr. and Mrs. Calvin H. Robinson. Mr. Robinson had owned and operated the newspaper since September of 1931, when he bought out the late Mr. A.H. Clement. In 1932, Mr. Robinson married the former Earle Patteson and they became Co-Publishers.

Mr. Vaughan, a native of Victoria, had been an employee of the Farmville Herald for a number of years before coming to Appomattox.

For a short time, the newspaper was set-up and printed by the old linotype and press method, but in 1966 the paper went off-set. a method of pasting up type-written or photo-copied copy directly onto the original newspaper pages which are then made into negatives. The negatives are burned onto metal plates and are ready for the presses.

During the ten years Mr. Vaughan has published the **Times-Virginian**, an excellent job printing shop has also been in operation. New and better equipment has been added throughout the years, the latest being a Compugraphic typesetter used for newspaper copy and also for job printing. In 1969, the building now housing the **Times-Virginian** was completed and with the new building and more space in which to operate the staff of workers feel they have been able to serve customers in a better and more efficient manner.

In February of 1971, J. Franklin Vaughan, brother of W. Lloyd Vaughan, returned to Appomattox with his family to become a partner in the business. Before the formation of this partnership, J. Franklin Vaughan was an employee of Smith Transfer Company in Lynchburg.

In observance of their Tenth Anniversary, the Vaughans invite you to an Open House at the **Times-Virginian** building on Friday evening September 1st, from 7 until 9 o'clock. Your personal invitation can be found on an inside page of this issue of the **Times-Virginian**.

N & W Plans To Donate "Depot" To Town

Maurice P. Anglen, Superintendent Norfolk Division of the Norfolk and Western Railway Co., and L. H. Callahan, Jr., General Agent of Lynchburg, were present at the meeting of the Appomattox Town Council Monday evening, August 28, held at the Town Office.

The gentlemen, representing N & W, presented to the council a proposal to establish a new Mobil Agency Plan. In this plan the agent would no longer be at the depot in Appomattox. A full time agent would be placed at the Farmville office that would make trips weekly throughout the area.

Anglen explained that N & W had received many letters from companies stating this plan would be more efficient than the present system. Anglen said, "We are not asking the council to support our new plans, but, to make a resolution not to oppose us."

Mayor H. B. Pack asked what the company's plan was for the present property on which the Appomattox Depot is located. Anglen replied that he will suggest to the company that the depot be given to the town of Appomattox, for whatever purpose they would want it for, and the land there on be leased to the town by the company.

The council approved the writing of the proposal to N & W.

Councilman T. E. Connor brought before the board a request from Mrs. Billy Chenault concerning a proposed sidewalk which would run 300 feet from Bandana Street to Moses Street

Effective Date September 30th

The Appomattox Post Office will become part of area mail processing, one of the newest innovations of the U.S. Postal Service, on Sept. 30, it was announced Tuesday by Postmaster, H. W. Conner.

"The program is intended to speed the ultimate delivery of the mail and to gain maximum efficiency through centralization of mail processing activities at Lynchburg," Conner said.

Massing the mail at Lynchburg will allow more direct dispatching to other cities, thus leading to quicker service. Appomattox is one of 60 associate offices in the Lynchburg area going into the program.

Area mail processing is a plan whereby all mail originating at these offices will be consolidated at Lynchburg for complete preparation and processing for outgoing dispatch. Mail will be cancelled with a local postmark ONLY if it is to remain in Appomattox or if sender requests it on selected pieces. The outgoing mail with local postmark will be dispatched to Lynchburg for distribution. It is very important that customers realize the value of separating their Appomattox mail from their out of town mail. Local mail deposited in the out of town receptacle at the Post Office will be processed in Lynchburg and will be unnecessarily delayed. All mail deposited in Appomattox street letter boxes should also be separated and bundled if there is sufficient quantity.

The evening dispatch will leave Appomattox at 5:30 p.m. rather than 6:00 p.m. in order that the Lynchburg sectional center will be able to process the mail and make the proper dispatches. "It will be very helpful to us if all customers will set a 5:00 p.m. deadline for their mailings since the last 30 minutes of each day we will really be rushed to get all of the mail out', says Conner.

The area mail processing center postmark will read "U.S. Postal Service Va 245" along with the date and am - pm designation.

Conner urged customers to no longer use the word "City" on mail addressed for local delivery, but spell out the name in that any such mail that gets mixed with out of town mail will be returned to Appomattox. Also, use your return address on all mail and because of the high degree of mechanization the use of Zip Code on all mail is extremely important.
